## STORY

One day, the Federation of Planets communication networks caught the transmission from our side of the galactic system saying "Warning! The Federation of Planets System I Surrender immediately and be under our control! Otherwise your system will surely be destroyed!!"

The enemy task force mechanized planet "RED EYE" was approaching our mother planet and just about to get us within the range of "WAVE CANNON", an attack weapon of "RED EYE".

The Federal Government asked the USSF their help to neutralize "RED EYE".

In order to attain the purpose, USSF plans the strategy called "STARBLADE".

Go!! Luck!!

## LASER GUN

Aim the enemy anyway you like and shoot the laser beam by pulling the trigger, or pushing the button.

## THE TERRIFIC FEATURES OF STARBLADE !!

The much more high-powered real time 3-DCG !

The adoption of the projection system in the Infinite Distance makes it possible to represent the magnificent scale of the space super real. Players can enjoy the exciting space battles with the feeling of live performance which the traditional games could not give you.

4-channel surrounding system is mounted ! the sound which echoes through the player's body surrounds the player in the world of STARBLADE.

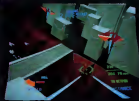

Now, scrambling from the mother ship.

The enemy gigantic battle ship appears.  
It seems to be a severe space battle.

Battle scene in the ravine. Many blind spots  
force us to fight desperately.

City area with skyscrapers.  
Fly fast & freely.
